

Porter Kalan, In Spite Of It All

I'm through with love Loves through with me I guess I've messed up one time too many
Can't get it together I've gone to the wall I've made it this far In spite of it all In spite of it all
You will knock me down When you come around You will take my heart Tear it apart You will mess
In spite of it all In spite of it all In spite of it all
I'm down with you You're done with me Don't make it hard Why cant you see
You're wasting my time I spend it all on you I'm not gonna fall In spite of it all
In spite of it all

You will knock me down When you come around You will take my heart Tear it apart You will mess
In spite of it all In spite of it all In spite of it all
You lose me You confuse me Don't use me Then refuse me You're lying I'm trying I'm done with you
You will knock me down When you come around You will take my heart Tear it apart You will mess
In spite of it all In spite of it all In spite of it all
