

Porter Wagoner, Denise Mayree

Hair like strands of gold hanging past your shoulders
As the wind blows through it wild and free
Your body is the color of a leaf touched by autumn hmm my Denise Mayree
Denise Mayree how I love you each thing we do makes golden memories
You stay in my mind like the beauty of a rainbow hmm my Denise Mayree

You light my darkest night like the stars from heaven
Just the thought of you lets me see
Your smile reflecting beauty of the love inside you hmm my Denise Mayree
Denise Mayree how I love you...

[ac.guitar]

The star's shining brightly shows the beauty of your body
As you lie on a blanket next to me
We don't have the money yet to build our little dreamhouse
Someday we will Denise Mayree
Denise Mayree how I love you...
