

Porter Wagoner, Find Out

Find out find out after you find out how true love is to find
Then you'll come back and be happy with mine

Someone filled your darling's head with story
About how greener grass grows somewhere else
And so you're searching for that perfect pasture
I guess you'll have to find out for yourself
Find out find out...

After you have searched this whole world over
And found those fairy tales were not true
Then come on home and you will find me waiting with open arms for only you
Find out find out...
