

Porter Wagoner, Happy Faces

Well I've never seen so many happy faces
Smiles are sure in style here at this place
Why everyone here looks just like a neighbor
You know there's love in every happy face

They say that frowning makes the wrinkles deepen
And loneliness will make beauty decay
So I'm filling up each day with happy sunshine and love
fills every night I dream away
Well I've never seen...

[el.banjo - fiddle]

Why almost everyone I guess at some time
Has had their pretty smile turned upside down
But if you'll look real close you'll find the happiness
Then you'll see smiling faces all around
Well I've never seen...
Yes you know there's love in every happy face
