

Porter Wagoner, I'll Go Down Swinging

The one I love don't want me hanging round
All she does is put me on and put me down
Tonight she's with a stranger at a party in her home
And I'm here at a tavern gettin' stoned
Cause if I gotta go I'll go down swinging
Where there's lights and laughter booze and blonds and a lot of sad sad singing
I'll sober up tomorrow and cry all day I know
At least I'll go down swinging what a swinging way to go
[el.banjo]
I dance with all the girls and buy the wine
Play the jukebox till I'm down to my last dime
She thinks she made a fool of me by loving someone else
She should see me make a fool out of myself
Cause if I gotta go...
