

# Porter Wagoner, I'm Stepping Out Tonight

All week long I've had the blues it's about to get me down  
This loneliness is just too much for anyone to be around  
But tonight I'm a gonna have some I'm gonna drive it off of my mind  
So you better watch out you pretty little girl I'm steppin' out tonight  
I'm a steppin' out tonight  
I'll get around and paint this town and see what I can find  
Maybe I'll find a pretty little girl who'll give me the come-on sign  
And if I do oh it's me cause I'm a gonna be a sight  
So you better watch out you pretty little girl I'm steppin' out tonight  
I'm a steppin' out tonight  
( fiddle )  
To look at me you think I'd be another bashful guy  
But I long for the chance to find romance and I just won't pass it by  
When I hold their hand they'll understand we'll get along all right  
So you better watch out you pretty little girl I'm steppin' out tonight  
I'm a steppin' out tonight  
I'll get around and paint this town...
