LOVE HAVE MERCY ON US

(Dolly Parton)

I wasn't looking for you when I found you  
I just turned and I saw you there  
And I was so lonely and lost when I found you  
And I needed somebody to care  
And it had been so long since I had been happy  
Or needed or wanted or loved  
And now that I've found you let my arms surround you  
Oh love have mercy on us  
Have mercy on us don't let it be wrong  
For there is nothing to live all alone  
And now that you're mine may love treat us kind  
Oh love have mercy on us  
Oh what must we do with this love for each other  
Is it wrong to love one so much  
I want to be with you and oh how I miss you  
Oh love have mercy on us  
Have mercy on us don't let it be wrong...
