

Porter Wagoner, Love's All Over

Honey they can tell by lookin' at us that we're in love
Why it's written all over our faces
Love came down like the rains from heaven
Love's all over us dripping like the morning dew
We can't hide it anymore you can't hide real love
When it's all over all over me and you
And it's wonderful to know it's all over love sweet love it's all over me and you

Once we worried what folks would think if they only knew
Just how much love there was between me and you
Well it's no secret anymore it's all all in plain view
Cause love's all over us love's all over me and you
We can't hide it anymore...
