

Porter Wagoner, Sun Don't Shine (On The Same

Look at the sunshine the movin' black clouds listen to the thunder movin' away
Even the lightening has stopped it's flashin'
You know the sun don't shine on the same dog every day
And I'm due a little sunshine it's been a long long time
And the sun don't shine on the same dog every day
I've had my share of rain and loneliness and pain
But the sun don't shine on the same dog every day

Well I've been like a hermit livin' on the inside
I'm movin' to the sunshine I'll start livin' on the outside
I believe I'm right when I say that the sun don't shine on the same dog every day
And I'm due a little sunshine...
(guitar)
Get back loneliness and let me by I'm looking for a new love you know why
My love she left me gone far away but the sun don't shine on the same dog every day
And I'm due a little sunshine...
No the sun don't shine on the same dog every day
The dog of the sun one will move every time
