

# Porter Wagoner, This Night

Oh what I'd give to live this night forever all wrapped in love that hides us this night  
But I know before the sun reveals our secret I must leave your loving arms this night  
Oh how I'd love to love you in the sunshine or any time but I know it's not right  
For I couldn't bring the shame to you that leaving her would do  
So this night must last forever this night this night  
[ steel ]  
Oh how I'd love to love you...
