

Porter Wagoner, Tore Down

Right behind my left eye is a hurtin' thumpin' sound
And the bottom part of the back of my head is spinnin' around and around
I've been town down yes I've been town down
Well I've looked all around this shaky room my woman can't be found
There's a little bitty bee in my stomach buzzin' around and around
I've been tore down yes I've been torn down
Too many good good buddies too many bad bad gals
Too many bright lights in this town and the sparklin' wine
Has done and tore me down
(steel)
Well I felt like Famous Amos last night out makin' the rounds
I had a drink with everyone I know and I know everybody in town
Now I've been tore down yes I've been torn down
Too many good good buddies...
