

# Porter Wagoner, We Can't Let This Happen To U

Lately we're acting as if we were strangers  
For a moment with each other we don't take time  
With our work and busy schedules of things we think important  
Seems we've left the most important things behind  
And we can't let this happen to us the hills that we climb may seem rough  
And the mountains between could shadow our dreams  
And we can't let this happen to us  
( steel - trumpet )  
We can't let this happen to us we must cherish each smile and tender touch  
For the castles we've built could all crumble to dust  
And we can't let this happen to us no we can't let this happen to us
