

# Portugal. The Man, Our Way

But we found that we were always lost  
And we will never find our way  
But we found that we were always lost  
And we will never find our way  
But we found that we were always lost  
And we will never find our way  
But we found that we were always lost  
And we will never find our way

But we found that we were always lost  
And we will never find our way  
But we found that we were always lost  
And we will never find our way  
But we found that we were always lost  
And we will never find our way  
But we found that we were always lost  
And we will never find our way
