

Portugal. The Man, What, Me Worry?

Every minute
Its runnin through my head
Hundred million thoughts
that I could have said
And every minute, it starts over again
Do do do do do

Knockin at your door
The world outside is waiting for ya
Knockin at your door
But you never know nothing if you never did

Happy as a clown
Woah
What me worry
House is burning down
Woah
Dont disturb me

I aint even trippin I ain't trippin
I'm just dancing through the door
What me worry
I ain't even trippin I'm not slippin
I just come on back for more
What me worry

Burn baby
We can burn it all down
a million pounds baby
Join the KLF and sail us up the Congo
Where there's no god to believe in
It's all I know

They said stop right now,
take a minute take your time
I ain't worried bout tomorrow
only thinking bout tonight
They said Stop right now
take a minute take your time
Said I'm living all alone inside a dream

Happy as a clown
Woah
What me worry
House is burning down
Woah
Dont disturb me

I ain't even trippin I ain't trippin
I'm just dancing through the door
What me worry
I ain't even trippin Im not slippin
I just come on back for more
What me worry

Stop right now, take a minute take your time
Said I'm living all alone inside a dream

I ain't even trippin I ain't trippin
I'm just dancing through the door
What me worry
I ain't even trippin Im not slippin
I just come on back for more
What me worry

Stop right now, take a minute take your time
I'm not worried about it
What me worry
I ain't even trippin I'm not slippin
I just come on back for more
What me worry
