

Post Malone, I Know

[Verse 1]

Our love will never be another
You're just a devil undercover (Undercover)
Found you when you were in the gutter (In the gutter)
Shit was sweet until I was a sucker, shout out Jonas Brothers
I learned more than I cared to discover (Discover)
Don't you know that I'm more than a come up? (Come up)
You act up and then act like it's nothin' (Nothin')
Sold your soul, you stone cold, you a stunner (Stunner)

[Pre-Chorus]

Every time you left (Left), shit was never right (Right)
In another bed (Bed) every single night (Night)
Had it to a science (Science), you were so precise ('Cise)
See it in your eyes (Eyes), saw you in the light (Light)
Somehow, mami, I still want you
Listen to me, don't drive away (Don't drive away)
Kill me softly, your hold on me is (Ooh)
Somethin' I can't explain

[Chorus]

I know you could never be my bitch (Yeah)
Shit could never be like this (Ohh)
I know, stop thinkin' you're in my plans (Plans)
Hunnid times you blew another chance (Chance)
I know you were gettin' down on the low (Down the low)
Then runnin' back to me in the morning (In the morning)
I know shit could never be like this
You could never be my bitch
No, no
(Ohh)

[Verse 2]

Our love will never be another (Uh)
You're just a devil undercover (Undercover)
Found you when you were in the gutter (In the gutter)
Shit was sweet until I was a sucker ('Til I was a sucker, yeah)
Rather be single for life (Single for life, rather be single)
Than be fuckin' with you
I ain't rollin' the dice, no (I ain't rollin' the dice)
I ain't playin' to lose (No)

[Pre-Chorus]

Every time you left, shit was never right (No)
In another bed (Bed) every single night (Oh)
Had it to a science, you were so precise (Yeah)
See it in your eyes, saw you in the light (Light)
Somehow, mami, I still want you (Want you)
Listen to me, don't drive away (Don't drive away)
Kill me softly, your hold on me is (Ayy)
Somethin' I can't explain

[Chorus]

I know you could never be my bitch (Be my bitch)
Shit could never be like this (Be like this)
I know, stop thinkin' you're in my plans (Plans)
Hundred times you blew another chance (Blew another chance)
I know you were gettin' down on the low (Down on the low)
Then runnin' back to me in the morning
I know shit could never be like this (Be like this)
You could never be my bitch
No, no

[Outro]

Be my bitch
It could never be like this
Shit could never be like this
Shit could never be like this
