

Povi, Place in the Sun

Your walked through the door
I see you
It's in the stairs to something amazing
In Spanish castle I partied for you know who
I'm almost to little to be seen
But that works for me
It's easy when the colors of the walls
Matches my skin

Hey now hey now your back again
Night after night oh, paranoid beauty
Can't believe you sleep when you shouldn't have
Time to find a place in my sun
A place in the sun

A million smiles lights up these dark clouds
Baby that's why I want you around
I know the price of the steps you make here
Maybe that's why you wanna touch the ground
Walking past the garden
Catching sight of an angel

Hey now hey now your back again
Night after night oh, paranoid beauty
Can't believe you sleep when you shouldn't have
Time to find a place in my sun
A place in the sun

Do you know where this life haunts you
Night after night who's by it's beauty
Here you are hope your conscience loves you
Another light of this paranoid beauty

Hey now hey now your back again
Night after night oh, paranoid beauty
Can't believe you sleep when you shouldn't have
Time to find a place in my sun
A place in the sun

Hey now hey now your back again
Night after night oh, paranoid beauty
Can't believe you sleep when you shouldn't have
Time to find a place in my sun
A place in the sun

Hey now hey now your back again
Night after night oh, paranoid beauty
Can't believe you sleep when you shouldn't have
Time to find a place in my
