Powderburn, Release The Men

Bring up something different Bring us a new sin Watch where you walk though That's where the mans been

Wipe off those smiles Please try again Conclusion hypnotized Release the men

(Pre-Chorus) Go down, down, up and down

Color the circle Come save some lives Watch where you walk though Most people die

Wipe off those smiles Gather some friends It's time to go Release the men

(Pre-Chorus) Go down, up and down

(Chorus) Straight from the seedling of the last illusion Looking quite nice but say goodbye, goodbye The difference lies within the mass confusion So all aboard and say goodbye, goodbye So all aboard and say goodbye, goodbye So all aboard

Bring up something different goodbye Bring us a new sin goodbye Watch where you walk though That's where the mans been

Wipe off those smiles Please try again Conclusion hypnotized Release the men

(Pre-Chorus) Go down, up and down

(Chorus)

Straight from the seedling of the last illusion Looking quite nice but say goodbye, goodbye The difference lies within the mass confusion So all aboard and say goodbye, GOODBYE
