

Powerful T, Blood And Fire

You fight against mystery
Sending the knights of fantasy
Princes and kings are on your side
They will stand fight for the reign

I'll be there to protect you
Fate and love are stronger in your heart
It's your day there's a way to guide you
Now can't you see we'll be fighting

You fight against mystery
Sending the knights of fantasy
Princes and kings are on your side
They will stand fight for the reign

I'll be there to protect you
Fate and love are stronger in your heart
It's your day there's a way to guide you
Now can't you see we'll be fighting

Blood and fire
Fight for your love again
You gotta scream all your dancing power
Fly high stand tall for your rights
It's your day my baby
Blood and fire
Dance for your love again
You gotta lead all your fighting power
Fly high stand tall for your rights
It's your day my baby

You keep the faith mystery
Make it a living memory
Ladies and queens are on your side
They will stand and cry for the reign

I'll be there to protect you
Fate and love are stronger in your heart
It's your day there's a way to guide you
Now can't you see we'll be fighting

Blood and fire
Fight for your love again
You gotta scream all your dancing power
