

Powerman 5000, Blast Off To Nowhere

Blast off, blast off to nowhere.... blast off.... this is time to go
blast off, blast off to nowhere... blast off... are you really what you think so

Please just kill me now or get me off this rock
Cause I can't stand to hear your faces and I can't stand to hear you talk
Prepared for anything cause this time is for real
Burn the souls of those left behind and I don't care how you feel

Cause It's time... to blast off
