

# Powerman 5000, Public Menace, Freak, Human Fly

I know a man-his face is like plastic  
Stretch smile wide, it's elastic  
I know a girl she can fill up a room  
1200 pounds, footsteps of doom  
I know a machine man he's X-51  
Harder than steel-his fists they're  
Like machine guns  
I know a guy bend a fork with his mind  
The three-eyed baby, she is not blind

From mud hut to skyscraper in the  
wink of an eye  
Back again just as fast  
Public menace, freak, human fly

I know the rat boy he does the rat dance  
Born with a tail  
He had to cut a hole in his pants  
I know the slug of the slime of the  
Slug of the worm man  
Couldn't walk a step, but he  
Dreamed that he ran  
I know the skeleton girl she'll play  
A song on her bones  
Creak the high notes and rattle  
Those low tones

From mud hut to skyscraper in the  
wink of an eye  
Back again just as fast  
Public menace, freak, human fly
