

Powerman 5000, The meaning of life

Wait, wait, wait, wait, wait
What's the meaning
You must be dreaming
To want the meaning of life
I heard you screaming
To know the meaning
To know the meaning of life
Yeah!
What's the meaning
You must be dreaming
To want the meaning of life
I heard you screaming
To know the meaning
To know the meaning of life (of life)
You've got radio
Living in stereo
You've got that song that you love
But they're just liars
Their words expire
And then that feeling is gone (gone)
What's the meaning
You must be dreaming
To want the meaning of life
I heard you screaming
To know the meaning
To know the meaning of life (of life)
You've got people
So many people
Walking two steps behind
They come to judge you
Not rise above you
But still they make you feel blind
Still they make you feel blind
Still they make you feel blind
What's the meaning
You must be dreaming
To want the meaning of life
I heard you screaming
To know the meaning
To know the meaning of life (of life)
Delay the decay, but the world keeps moving on
You need to know a little more than that
Your time is up but the world keeps moving on
You need to know a little more than that
What's the meaning
You must be dreaming
To want the meaning of life
I heard you screaming
To know the meaning
To know the meaning of life
Let's go!
Life! Life!
You need to know a little more than that
Life! Life!
You need to know a little more than that
Life! Life!
You need to know a little more than that
You need to know a little more than that
[computer gibberish]
