

Powerspace, All Out, All Night

I met a girl from the northwest suburbs, oh oh
She had a mouth like you wouldn't believe
She said, "Hey kid, I think I wanna get cccrazy
So let's go
Let go of everything you want
And let me show you what you need"

Let's mix some drinks
And mix it up for a while
Think you're ready
To see the fires we ignite
When we go out at night?

Got in my car
Headed eastbound on Kennedy
Staring at the skyline on my way downtown
She hit the floor before I knew what h-hit me
Eighty-sixed after six drinks mixed
I said (c'mon) follow me

Let's mix some drinks
And mix it up for a while
Think you're ready
To see the fires we ignite
When we go out at night?

I've got some things that I should clear up
But I don't think you're ready
So pass the bottle
Let's get up and go all out, all night

It's a disco, baby
(It's a disco, baby)
Don't you know we're supposed to dance like that?
Don't you know we're supposed to dance like that?
It's a disco, baby
(It's a disco, baby)
Don't you know we're supposed to dance like that?
Girl, you know you want to, want to, want to

Let's mix some drinks
And mix it up for a while
Think you're ready?

Oh yeah, we're fucking ready
Hell yeah, we're fucking ready
Fuck yeah, we go out all out, all night

Let's mix some drinks and mix it up
Oh yeah, we're fucking ready
Hell yeah, we're fucking ready
Fuck yeah, we go out all out, all night
