

Powerwolf, Behind The Leathermask

Heavy Metal in the night
Deadly soldiers came to eat you alive
Final battle for the wild
Mental warfare of the scorpion tribe
Blood invasion - Out to fight
In a circle - We're the servants of light
Stay - Better start to pray
Killing me today
Feel the war inside yourself
And burn them all away
Leather hides my face
Blood is on my trace
Until the end of days
Behind the leathermask
Behind the leathermask
Savage union - Strong and wild
Wolves of darkness
We're the murderous five
Fire warning in the night
Cities burning
Killed by serpents of might
Stay - Better start to pray
Killing me today
Feel the war inside yourself
And burn them all away
Leather for the night
Prophecies of might
Dying side by side
Here comes the leather...
Here comes the leathermask
