Powerwolf, Fire & Forgive

Fire & amp; Forgive

We all

Fire & amp; Forgive

We call

Fire & amp; Forgive

Sons of god and sacrament The night we're dying for By the call of pyromania Bring fire into war

Rest in flame by testament At midnight we return Raising fodder for the living The trail of life we burn

And we bring fire, sing fire Scream fire & Drgive Forgiving the liar, by fire we live We bring fire, sing fire Scream fire & Drgive The last of the blood we will give

Fundamental armament
The price we all ignore
Bring to fallen as the savior
To son of god we swore

Once ignited out of it
The beast we all can tame
By the whitest of the holy lore
Come praise the lord in flame

And we bring fire, sing fire Scream fire & Drgive Forgiving the liar, by fire we live We bring fire, sing fire Scream fire & Drgive The last of the blood we will give
