

Pre)Thing, Won X

It goes on and on
Like you know it's over
And then you
Read and you write
And then you
Wonder why
And then you
Find yourself alone
And then you
Maybe you call on the phone
And then you
Take that song
And then you
Write it all day long

And everything is everything
And everyone is something
And everyone just can't be wrong

It goes on and on
Like you know it's over
And then you
See and you write
And then you
Look in your eyes
And then you
Run away
And then you
Take all damn day
And then you
Ramble on
And then you
Sing this silly song

And then everything is everything
And everyone is something
And everyone just can't be wrong
And everyone just can't be

I'm gonna find my wings
Find my ticket
Everything is all about you
And everything is all about you
And everyone is all about you

I'm gonna find my things
And find my home
And find these things and go away
And find the strength and go away

Won + X
Won + X

I'm getting older
Looking at things bolder, baby
Give me won + x - - - -
Just give me
Won + X
Yah " hah " yah " yawwwwww

It goes on and on
Like I know it's over
And I
Sing and I laugh

And then I
Try and I try
And I
Sail away
And then I
Find another day
And then I
Travel on
And then I'm
Singing these silly songs

And then everything is everything
And everyone is something
And everyone just can't be wrong
And everyone just can't be

I'm gonna find my wings
Buy my ticket
Everything is all about you
And everything is all about you
And everyone is all about you

I'm gonna find these things
And take them home
Find these things and go away
Find these things and just go
