

Precious, Say It Again (Eurovision 1999)

Say it again
I know i heard you right
I've been lying awake at night
thinking about 3 words you said to me
I know it's hard for you
sometimes you gotta let the feeling through
I wanna know exactly how you feel (oh yeah)
I've tried to be patient
and give you a little more time
now I need to be sure
what's on your mind
say it again
say yeah
say the words I heard you whisper
say it again
say yeah
when last night we were together
lying next to me, you said to me
say it
say it again
I knew right from the start
you've been living with a broken heart
but baby I knew it takes some time to heal
but now I must confess
the way you fill me with happiness
thinking we could be starting something real
I've tried to be patient
and give you a little more time
now I need to be sure
what's on your mind
say it again
say yeah
say the words i heard you whisper
say it again
say yeah
when last night we were together
lying next to me, you said to me
say it
say it again
now I just need to sure
that you're mine forever
all I'm asking you for
is to tell me wether
I should be trusting in you
tell me if the words you whispered were true
say it say it say it say it say it
say it again
say yeah
say the words i heard you whisper
say it again
say yeah
when last night we were together
lying next to me, you said to me
say it
say it again
(repeat)
