

# Prefab Sprout, If You Don't Love Me

If you don't love me, oh if you don't love me

You can tell me anything  
You can tell me anything  
I'll believe you  
You know it too  
Shame the truth with lies  
Say the sun won't rise  
Only realise

If you don't love me oh if you don't love me  
I will know, I will know  
If you don't love me oh if you don't love me  
I will know  
I will know

You can ask me anything,  
You can ask me anything  
I will do it  
You know it too  
Nothing I won't do  
If you want me to  
But it's also true

If you don't love me oh if you don't love me  
I will know, I will know  
If you don't love me oh if you don't love me

If you don't love me oh if you don't love me  
I will know (I will know)  
I will know  
If you don't love me oh if you don't love me  
I will know (I will know)
