

Prefab Sprout, Looking For Atlantis

If you're looking for Atlantis
You should cast your eye on me
Put your two and two together
Don't you know who built Atlantis
Then returned to the sea
Don't you know who owns the weather ?
Rain or shine
Sure is good to seek a challenge
Sure is fine to set your sights
Sure is foolish to be blinded
There are legions out there churching
Searching for the holy grail
Isn't one of them can find it
All this time
You should be loving someone
And you know who it must be
Cause you'll never find Atlantis
Til you make that someone me
You should be loving someone
And you know who it must be
Cause you'll never find Atlantis
Til you make that someone me
Say you do find your volcano and the darn thing is still hot
Lesson one : Child don't waste it
Lesson two : The world's your cherry
But tomorrow ? Maybe not
Lesson three : Come on and taste it
All this time
You should be loving someone
And you know who it must be
Cause you'll never find Atlantis
Til you make that someone me
You should be loving someone
And you know who it must be
Cause you'll never find Atlantis
Til you make that someone me
