

# Pressure 4-5, Into Yesterday

Step into the light  
Because your face is darkened  
From the night  
Will focus my attention  
On the things more important than me and my life

These days will change  
Like memories fade into yesterday

In the heart of every moment  
Lies a truth and a message, I might not know  
Can't forget the time we shared  
The lessons learned in the past I'll forever hold

These days will change  
Like memories fade  
Into yesterday  
And when I go  
What will I know  
And what will they say

I fade to sleep and I dream  
Secrets I keep, with everything  
It seem if I believe it  
I might see you

CHORUS

(My dream is gone)

We fade to sleep and in our dreams  
Answers we seek to anything  
Awake only to see that  
My dream is gone
