

Pretty Maids, Brave Young New Breed

Imagine if you were king for a day
And played your little part in history
Would you go first and show us the way
And bring an end to all this misery
Tell me what you'd do
Would you take me through
What's it comin' to
Would you die with me
Face the world I see
Fight my enemy
Would you stand
By me and be by my side
And into glory we'll ride
Fight 'til the end
As the brave young new breed hey
Man if you could be God for a while
And carry out your private judgement day
Could you forgive and forget with a smile
Just turn your cheek and look the other way
Would you make a change
Could you ease the pain
Loosen up the strain
Would you justify
Reinvent my life
Bring me paradise
Would you stand
By me and be by my side
And into glory we'll ride
Fight 'til the end
As the brave young new breed
I'll sacrifice pay the ultimate price
And my duty will be in your command
You hold the key to my future believe me
My destiny lies in your hands mm yeah alright
Tell me what you'd do
Would you take me through
What's it comin' to
Would you stand
By me and be by my side
And into glory we'll ride
Fight 'til the end
As the brave young new breed oh yeah
