

# Pretty Maids, Little Darling

Little darling gonna be a rock and roll star  
Little darling gonna play electric guitar  
Little darling would like to know you  
Pleased to meet you, how do you do  
Little darling, little darling, little darling  
little darling, little darling gonna love you to night

Little darling gonna shake, shake boogaloo  
Little darling can I rattle my bones and dance with you  
and later on there'll be some lovin', dovin'  
a little kissing, a little hugging, a little holding you  
Little darling, little darling, little darling  
little darling, little darling gonna love you to night  
ain't nothing gonna stop it

Little darling what's mam a gonna do  
little darling when she finds out I stayed out all night with you  
stayed out all night

Little darling I'm gonna miss kissing you  
little darling I'm gonna miss missing you  
Little darling, little darling, little darling  
little darling, little darling, little darling  
little darling, little darling gonna love you to night
