

# Pretty Maids, Walk Away

Here we are standing at a crossroads baby  
Can't seem to make a move  
Don't know which way to choose  
We used to fly into the heavens  
On the wings of an angel  
An everlasting fire  
An eternal cruise  
Those were the good times

Stolen moments underneath a full moon rising  
We both laid down with love  
And woke up with lies  
Gonna give it one more try

Here we are picking up the pieces  
Trying to get this puzzle together  
We need a cure for this disease  
A healing hand

Though our love has come to a dead end street  
And we're stuck where happiness  
And heartache meet

[Chorus:]

You see we can't give it up  
It's not too late  
You need a little love  
Don't hesitate  
I swear I'll give it all I've got  
To make you stay  
So don't you walk away

Once a time and place  
There was a bond between us  
Something sacred something innocent  
We need a star that doesn't fade  
And wherever it might lead us  
We gotta follow in our hearts direction  
I got a feeling girl  
We're gonna crash into love

How can you back down baby  
When love is all around  
And it's here to stay  
I'll be determined to defend  
A tower of strength

Though the best laid plans  
Sometimes go astray  
There's a guarantee that love will find a way

[Chorus]

A heart needs love  
Like the desert needs the rain  
And I need you girl  
Each and every day  
We'll do the things babe  
That other fantasies  
Women we just need a little confidence  
In each other
