

Pretty Ricky, Get You Right

Yeah Yeah Yeah

Baby let me lay ya down

On the carpet when I come round

Get rug burns when I tear ya down

On the ground all I wanna hear is that ooh ahh sound

I'ma push up on ya slow

Get ya right by the end of the night

Do something sweet

Like massage ya feet

And put Pretty Ricky cd on repeat

Then get an ice cube and put in work

Go to the kitchen for a lil' dessert

I love butter pecan ice cream

Eat cake but I lick off the icing

Maxin' and relaxing

I'm guaranteeing satisfaction

Give you fast or slow back action

Depending on your reaction girl

It's seven in the evening

And everybody's leaving

I decided to stay in

I just felt like chilling

And I wondered if you felt the same

Just say the word, I'll be on my way

I'm just a few, few blocks away

I just wanna see your pretty face

[Chorus:]

All I'd like to do

Is lay with you tonight

I don't wanna hit the club

i wanna lay up

(And when I come over)

I'll get you right

(I will)

Get you right

(I will)

Get you right

We can do anything that you wanna do

And before I go home

I'll get you right

I pictured me holding you

I pictured you holding me

We can watch a movie girl

I just bought some brand new dvd's

And I wondered if you felt the same

Just say the word, I'll be on my way

I'm just a few, few blocks away

I just wanna see your pretty face

[Chorus]

[Bridge:]

When I leave my house

I hope that you'll be looking for me

And you'll be waiting for me

Cause I will

I'll be speeding on the way

And when I get there

I'll get you right

You called my phone and told me

"Baby come through"
I said unlock the door
And I'll be there in a few
Brought "Love and Basketball"
and ordered some food
Now it's time to do
All the things that you wanna do boo
Open the door, lock it back
And head into the room
Pop in a movie, hit the lights
And lay next to you
Cuddle under the covers
Kissing and hugging
While I get you right
Forget the club and going out
Baby I'm spending the night

It feel like heaven when I'm with ya
Baby I just wanna chill with ya
Spend some time with ya
Wine and dine with ya
In my mind I'm painting a beautiful picture
Me and you spending Q.T.
On the low key, baby we overseas
Knocking boots like H-town
You holding me girl
You got me feenin' like Jodeci
This is where I wanna be
With you screaming
We out here so what they do
Cause baby I'm so in love with ya
Everywhere I go I got your picture
Baby I miss ya
I just wanna spend some time with ya

[Chorus]
