

# PRETTYMUCH, Summer on You

baby, i ain't got no money  
all i go it time  
and i'm gon' spend that time on you  
but when they pay me  
and I can buy the sunshine  
take your away  
we'll drink champagne  
while holed up in a room

darling I've been working all week  
I've got so much on my plate  
always saying poor me  
although my boss is an asshole  
That's when you call me  
said you've been making a plan  
to hit the road with me  
I'll pick you you after and .....

we'll hit the coast on the late night  
make love till daylight  
I love it when you play with me hair  
you know it feels so nice  
and I'll do what you like  
naked in the moonlight  
we don't care if we are broken  
when love is all we own, I'm singing

Baby, I ain't got no money  
all i go it time  
and i'm gon' spend that time on you  
but when they pay me  
and I can buy the sunshine  
take your away  
we'll drink champagne  
while holed up in a room  
and I'll spend my summer on  
I'll spend my summer on

I'm singing hey babe  
two jobs on minimum wage  
although the rent's late still go a smile on my face  
we ain't got the sunshine  
but we got hearts in our chests  
to feel the love like this  
stronger than anyone else

we'll hit the coast on the late night  
make love till daylight  
I love it when you play with me hair  
you know it feels so nice  
and I'll do what you like  
naked in the moonlight  
we don't care if we are broken  
when love is all we own, I'm singing

Baby, I ain't got no money  
all i go it time  
and i'm gon' spend that time on you  
but when they pay me  
and I can buy the sunshine  
take your away  
we'll drink champagne  
while holed up in a room  
and I'll spend my summer on

I'll spend my summer on

Baby, I ain't got no money  
all we got is love  
but I know that can see us through  
it might sound crazy  
by why do we need sunshine?  
we can stay and sip worm beer  
while holed up in a room  
that's how we spend my summer on you

Baby, I ain't got no money  
all i go it time  
and i'm gon' spend that time on you  
but when they pay me  
and I can buy the sunshine  
take your away  
we'll drink champagne
