

# Pride of Mind, The Sky Was Blue [My Supreme L

My life was feeling warmth,  
but you looked sad.

I want to live alone with you.

I don't hope expect for love.

That will do....

In the dream. I'm standing by myself  
in the shade fo the dark-moon.

I call you. In front of me,  
you showed up in the deep fog.

Why do you conceal your face?

itami wa shizuka ni oto mo tatezu hanarete yuku

talk to me kimi wa muhyoujou ni warau

kiekakaru yume, asobu taiyou no hikari

touch me kanashimi kakusenai

Always you come in my dream every night.

You did nothing but smile~short distance...

I wanted to confession of love for you,  
and so touch.

Sea was calm.

I love you. The sky was blue.

ano toki kimi no modorenai hibi wa tooku

wave to me subete nami no kanata e

hate shinai sora, hakanaku yureru ao ni

watch me kono ai iyasenai

I need you. I love you. to say, for see

You need me. You love me. to feel, for live
