

# Primal Fear, Fight To Survive

Don't you see the danger,  
Coming over you  
Don't act like a stranger  
Don't live like a fool  
Corruption - destruction  
It's always the same  
Illusion - confusion  
The world lives in pain

Hideous & hateful, it cuts like a knife  
Money & business are counting our lives

Fight to survive - the worlds in disguise  
In the heart of darkness  
Fight to survive - sedition will rise  
In the dark days of your life

Priests & politicians  
Tell us what to do  
Words to clean up their positions  
Never on the loose  
Submissions - ignition - to start a new age  
Suspicion - tradition - releasing the rage

Hideous & hateful, it cuts like a knife  
Money & business are counting our lives

Fight to survive - the worlds in disguise  
In the heart of darkness  
Fight to survive - sedition will rise  
In the dark days of your life
