

Primal Fear, Kiss Of Death

Your tragedy was to believe me
I had bad feelings for your relief
You try to offend me, in your selfish way
My agony was not a reason to betray

You're gonna pay

Dance with the devil - still feel the pain
Suit up for destruction - the kiss of death

No time for anger, no time for despair
I don't want to see me in this nightmare
No chance to hurt me, no chance for tears
All I want to prove your darkest fears

I'll disappear

Dance with the devil - still feel the pain
Suit up for destruction - the kiss of death
Look into the future - it will take your breath
Suit up for destruction - the kiss of death
