

Primal Fear, Silence

So cold is the night
It's silent without light
Since days they promised us
To be home again

The Death comes closer
The Fear's coming nearer to us
There will be no tomorrow,
Do we go insane?

I have a picture of you with me...

(Chorus)
Will there ever be an end?
Will there ever be a last goodbye?
Please tell me there is hope,
In silence 'till we die...

There is still longing
In my eyes I see a different Earth
I'm not impressed, it's just the silence

There must be something to believe in...

(repeat Chorus)

Waiting it's lately
And there will be a fight
Escape to a new world
What will be behind these lies

There must be something to believe in...

(repeat Chorus)

Do you believe it?
There's hope in my eyes
In silence 'till we die...
