

Primal Scream, Crystal Crescent

I endeavour to struggle at the ...
I remember another day and realise what love means
I look at myself again how I can't stop the
.....i can't tell you

Chorus

I guess I'm following, I'm following,
I'm following my heart
Oh yes I'm following, I'm following, I'm following
My heart to what I've found
That's where souls lie in ... (paradise?)

I'm enchanted with ... but will it be relinquished
I'm entranced with your kiss
I look at my world again how I now realise what
That only love will set you free
Here I go again

Repeat chorus
