

# Primal Scream, Rays Of The Rising Sun

Out of darkness came forth a blinding light  
Bizzing(?) in the sky like a burning flame  
We got on our knees, we began to pray

[Chorus]

We worship you

We pray to you

Oh we praise you

Look into the rays of the rising sun

Here they come, one by one

Look into the rays of the rising sun

Here they come, one by one

Look into the rays

The rays

Salvation has come

We have found the one we can trust upon (?)

Bringing peace and love (?)

That caresses me, sets my spirit free
