

# Primal Scream, Understanding

(feat. PP Arnold)

When people ask me what love's all about  
There's one thing I can say  
Some people believe just what I'm putting down  
Understand your troubles away

[Chorus]

You got to do this thing we're feeling  
You got to know just what I'm meaning  
You gotta believe just what I'm handing  
Understanding, understanding

Yeah, alright alright  
Hey hey  
You see I love this life I lead  
And I wanna love it with you  
But people you don't understand  
Just what I'm putting down  
There's no more I can do

Chorus

Yeah, alright, come on  
Just don't lose it  
Come on children, I wanna hear you one more time

Chorus

You know what I'm singing about  
My baby's gonna care, gonna make it alright  
With a little understanding  
We can make it through the night, yeah  
Baby, baby give me some  
You know I got to have some  
All you know we need is just a little understanding  
You can talk to me baby  
Tell me what's on your mind  
With a little understanding  
Everything will be just fine

ad lib to end
