

Primer 55, Dose

psychodelic suicide, trip it and you'll never die
sometimes, i can not believe, the things that acid does to me
chemicals inside my brian, laughter easing all my pain
once thing i cannot believe is things that this world does to me
does to me

somebody help me, i'm falling apart at the seams
only salvation is a drug called lsd

psychodelic suicide, hate that's dwelling deep inside
look inside and you will see, there's no such thing as make believe
chemicals inside my brian, assuring me that i'm insane
one thing i cannot believe, is things that this world does to me
does to me

somebody help me, i'm falling apart at the seams
only salvation is a drug called lsd

i can do anything when i dose, i can do nothing

somebody help me, i'm falling apart at the seams
only salvation is a drug called lsd

underneath the skin, lies your misery
somebody help me, i'm falling apart at the seams
