You had to go and get somebody else
Your High enough to call me

(Verse)

I tried to warn you
that its hard to be a star
Especially when your driving other peoples car
Would of gave you mine girl
But you took it to far
I Love you baby
Just not like i love my guitar

(Corus)

(Verse)

I know you love me
And you want to be Friends
And if you dont at least you need to pretend
We'll still be together
If we dont get that far
I love you baby but not like i love this guitar

(Outro)

I love you baby and i wish you well
I'll write a letter when i learn how to spell
Until the day you can go to hell
I love you baby you know the rest
