

Prince, Teacher, Teacher

Teacher, teacher
I may not love you
But you're the teacher
I try to do what you want me to
I know you get lonely
But you gotta know
It wasn't love
Let me tell you honey
I'm just a young girl
Don't think I know it enough

Teacher, teacher
I don't wanna get an A
Teacher, teacher
There's gotta be a better way

I'm sick and tired of makin' plans
Without makin' up my mind (Make up your mind)
Teacher, teacher
Can't you see I just need a little time
I know you've been cryin'
Just think that you're not alone
Just cry me a river
It's what you'll deliver
We have to do it on the floor

Teacher, teacher
I don't wanna get an A
Teacher, teacher
There's gotta be a better way

(Woohoo, yeah)
Teacher, teacher
I've been tryin' to get you down
But why should you get used to somebody
Who won't be around
I know you get discouraged
Cause you wanna do it all the time

Honey I can't let you use my body
The same way you use my mind

Teacher, teacher
I don't wanna get an A
Teacher, teacher
There's gotta be a better way
[repeats to end]
