

Princess Superstar, Push, Make It Work

I think everything's broken
I stink, everyone's smokin
I ring, everyone's cokin
I blink, everyone's spoken

We hit the clubs
We hit the drugs
(boring)
we say goodbye
on the bed I lie

ahh you ain't happy
I see it while you're laughing
So if everything hurts
Gotta push, make it work

We're all out of control
Runnin up the sides of a bowl
I wonder why it's so hard
Maybe we just need brand new cars

Ahh you ain't happy
I see it while you're dancing
So if everything hurts
Gotta push, make it work

Licks, kicks, tricks, I'm sick time to get fixed
I said, licks, kicks, tricks, I'm sick I wanna get fixed I wanna
Get fixed

You can't get everything all at once
You don't even know what you want cunts

Push, make it work
