

Princessa, A Better Man

Open you eyes
say what you say and I'll listen
For a while
Where is your smile
The one that reminds me to whisper
Like a child

How can we stay strong
How hope is gone

Give you a reason
You can believe in
Help you to be the best you can
Give you a feeling
The love that I'm needing
to make you a better man

Will it be there the taste that reminds me
I missed you
All this time
You know I still care
I'm walking around in a circle like I'm blind

Oh it's been so long, but I'm holding on

Give you a reason
You can believe in
Help you to be the best you can
Give you a feeling
The love that I'm needing
to make you a better man
