

Princessa, Calling You

This is a message from the city of love...

You told me it's too far away,
To have our love for everyday
That's why I'm calling you
Because you can come by aeroplane
Taxi-cab or streamline train
Tonight, I'm calling you

Can you hear me calling?
Can you hear me calling...

Calling you, a message from Love City
Calling you, to help me through the night
Calling you, a message from Love City
Calling you, my love is shining bright

So take the chance and stay with me
Get your things and come to me
Tonight, I'm calling you
Because you can come by rollerskate
Motorbike from Sixty-Eight
Tonight, I'm calling you

Can you hear me calling?
Can you hear me calling...

Calling you, a message from Love City
Calling you, to help me through the night
Calling you, a message from Love City
Calling you, to help me through the night
Calling you, a message from Love City
Calling you, my love is shining bright
Calling you, a message from Love City
Calling you, to help me through the night
Calling you, a message from Love City
Calling you, my love is shining...
