

Princessa, I Was Wrong

Artist: Princessa
Song: I Was Wrong

Everytime when i see you again
I look into your eyes
when i softly speak your name
it was cold as ice
no i didn't know how to tell you how i feel
these simple words that you must hear
that you must hear

Chorus:
i was wrong to tell you goodbye
i was wrong your still on my mind
and i really need you back again
just like the flower needs the rain

Whenever i be without you
Another day ends
so what am i gonna do
my life is in your hands
no you didn't tell me how you feel
these simple words i long to hear
i long to hear

Repeat chorus

i was wrong
i was wrong
and i need
yes i need you
no words can ever say

Repeat chorus
