

# Princessa, Shut Up And Kiss Me

We can talk about it, talk about it  
We can do it all night long, yeah  
We can talk about it until we'll blue  
We can mess communicate give and take fight about  
Right or wrong, yeah  
When the morning come we're still have no clue  
we can try to make sense of it  
Make all the pieces fit but maybe just we're talking in vain

Shut up and kiss me (na.na,na ...) or just shut up  
Shut up and kiss me (na.na,na ...) or just shut up  
or just shut up

Pacify me baby try me, satisfy a primal urge  
'Cos you know we feel muchbetter when we do  
Talk is cheap but love is sweet spoken without words  
We need more than words to see this true  
My heart is a battleship, ever so passionate  
take it before it's to late

Shut up and kiss me (na.na,na ...) or just shut up  
Shut up and kiss me (na.na,na ...) or just shut up  
or just shut up  
or just shut up

We can talk about it, talk about it, we can do it all night long  
We can talk about it until we'll blue  
We can mess communicate give and take right about  
Right or wrong, we need more than words to see this true

Shut up and kiss me (na.na,na ...) or just shut up  
Shut up and kiss me (na.na,na ...) or just shut up  
or just shut up  
or just shut up
