

# Princessa, Snowflakes

No longer I can conceal I have been faking  
That somewhere in my heart I feel a love so true  
And everytime I see your smile  
I find my love for you worthwhile  
And if you take me for romance I'll fall in love again

We are snowflakes in the wind  
We are feathers in the storm  
We are snowflakes in the wind  
And we're like feathers in the storm

I don't know how far we go until it's over  
And then I don't know how lovers know how much it hurts  
Needles don't catch my fall I'm softly drowning  
I'm longing for the chance to do what lovers do  
You make it feel so naturally  
Your bringing out the best in me  
Now at the end of every day I know I'm not alone !  
(Chorus)
